

Scenario 1: Login + Add post

1. Login to the admin account (username = “admin”, password = “password”)
2. Create a new post in the profile page.
3. Once the form (for adding a post) is submitted, you should be returned to your profile page and the new post should appear as a post in your profile.

Scenario 2: Delete post

1. Create a few (1 to 3) more posts.
2. Delete one of the posts (by clicking on the red delete post button).
3. The post should be deleted from your profile page.

Scenario 3: Adding a comment

1. You may choose to add the comment by clicking
 - a. “view comments” OR
 - b. “view post” and then “view comments”
2. Add your comment.

Scenario 4: Logout + Sign up

1. Logout of the admin account.
2. Sign up for a new account.
 - a. Use “admin” as your username.
 - b. Use any password.
 - c. The sign up should fail (because there is already an account with username admin).
3. Sign up for a new account
 - a. This time use a non-existent username.
 - b. Use any password.
 - c. The sign in should succeed.

Scenario 4: Search + Follow

1. Once logged in, click on “search” in the navigation bar.
2. Search for “admin”. You should notice that “admin” is the first username that pops up in search results while your username is the second.
3. Follow “admin”.

Scenario 5: Feed + Comment

1. Click on feed.

2. Select the post that already has a comment (remember you added a comment for one of admin's post earlier).
3. The comment should be there when you go select "view comments".
4. Now, add your own comment which should appear in the "view comments" section.

Scenario 6: Logout

1. Logout of this current account.

Scenario 7: Ban

1. Log back into "admin".
2. Search for the non-admin account.
3. Ban the account.
4. You should not be able to log in to the non-admin account.

Scenario 8: Unban

1. Log back into "admin".
2. Search for the non-admin account.
3. Unban the account.
4. You should be able to log into the non-admin account.

Scenario 9: Following + Followers

1. Log into "admin". You should see that you have 1 follower when clicking on view follower.
2. Log into the non-admin account. You should see that you have 1 following when clicking on view following.

Scenario 10: Account promotion

1. Log into "admin".
2. Search for the non-admin account.
3. View the non-admin account profile.
4. Promote the non-admin account.
5. You should no longer be able to ban / unban / promote that account.

Scenario 11: Self-deletion

1. Log into the non-admin account (that was promoted in step 10).
2. Delete this account.
3. You should not be able to log back in.

Scenario 12: Admin-deletion

1. Create a new non-admin account.
2. Log out.
3. Log in to the admin account.
4. Search for the new non-admin account.
5. View its profile and delete the account.
6. Log out.
7. You should not be able to log back into the new non-admin account.
